About us
Museo de las Americas is the premier Latin American Arts Museum in the Rocky Mountain Region. Founded in 1991 by Jose Aguayo, Museo has been serving the community for 30 years as a space for our community to experience Latinidad and celebrate Latinx and Chicanx artists.

Mission
Museo is dedicated to uplifting the arts and cultures of the Americas and the communities they come from by offering diverse and enlightening exhibitions, special programming and educational activities.

We are one of only 18 Latin American Museums in the country!
Our Exhibits
Museo’s innovative exhibitions advance the role of Latinx artists in shaping the local cultural dialogue as a pillar of our community. Over the years, Museo’s exhibitions have blended the contextual depth of the past with diverse, new viewpoints of artists today. Museo Sin Fronteras, which presents traveling exhibits of Museo’s collection in surrounding communities, has allowed Museo to provide non-traditional audiences with the opportunity to experience Latinx art and culture in more accessible settings.

Our Programming
Alongside exhibitions, Museo’s arts-integrated educational programs reflect new cultural viewpoints, fosters cross-cultural understanding and promote healthy youth development. By incorporating STEAM aspects alongside traditional indigenous knowledge, Museo has made continuous strides to improve its cultural workshops. Our flagship summer programs -Summer Arts + Culture Camp and Los Jovenes Leadership Lab- have adapted to embrace new technologies and emphasize social emotional learning.

Workshops can be tailored for your age group and audience.

Frida Kahlo – Queen of the Selfie
Frida is one of the most recognizable faces in Mexican Art, and she perfected selfies way before the rest of us! Students will learn how Frida chose images to express her thoughts and feelings, and then make their own mixed-media “selfie” collage.

Jose Posada – The Art of Protest
The creator of the iconic Calavera Catrina (The Elegant Skull) was a shrewd social critic, who used satirical imagery and humor to spark protest and social change. Students will create their own protest print about a topic of their choice.

Dia de los Muertos – A Living Tradition
In our most popular workshop, students decorate their own sugar skulls and create paper marigolds and papel picado (pierced paper) while learning about the history and traditions of this ancient holiday celebration.

Family Stories - Illustrate Your Story
Carmen Lomas Garza is known for her colorful and detailed illustrations of memorable experiences with her family and their traditions. In this workshop, students will learn about different family traditions and create their own illustrated family stories.
